HOW TO MEASURE

1 CHEST

Measure around the fullest part of your chest, keeping the tape parallel to the floor.

2 WAIST

Measure around the narrowest point of your waist, keeping the tape parallel to the floor.

3 HIP

Stand with feet together and measure around the fullest point of your hip, keeping the tape parallel to the floor.

CHOOSING THE RIGHT SIZE

In cases where your body measurements are between two sizes, go with the smaller size for a tighter fit and the larger size for a looser fit.

Bottom fit: If your body measurements for hip and waist result in two different suggested sizes, you're better off going with the size from your hip measurement.

Top fit: If your body measurement for chest and waist result in two different suggested sizes, you're better off going with the size from your chest measurement.
